

CR-1028E

CR-1028E is the latest type of universal A/C remote control. It can remotely control most brands and models of A/C. It has many characters: digital automatic code searching function, low power consumption function, complete function, far sending distance, easy setting, comfortable handle, etc. What's more, it has a big LCD display (appears such as setting, clock, timing ON/OFF) which make it more convenient to operate.
